## Tender Premium Customers (Selection)

# Never miss a Tender!

With Tender Premium, it is easier than ever to stay up-to-date on newly issued smart city tenders. With various filter options, customizable preferences, and our tender alert, you will never miss tenders that are relevant to you

## ✓ Set individual tender preferences

You can set and apply individual tender search preferences. You can use keywords/tags of interest to you and preset filters to narrow down the search by economic region and tender type. You can modify these presets at any time.

## ✓ Receive tender alerts via email

Based on your preferences, you can set your individual tender alert. Whenever we add a new tender, we will check it against your presets and send an alert immediately to your email address if it meets your selected tender preferences.

## ✓ Filter tenders by type

With the tender type filter, you can specify your favourite tender category - e.g. RFP or RFT - and get the results you need. We currently have 12 different tender options that you can choose from.

## ✓ Filter tenders by region, language or deadline

With our region, language and deadline filters, you can search for tenders issued in specific economic regions, languages or by deadline periods. The filters provide you with the option to fine-tune your tender search to best meet your business needs.
